HOUSE OF REPRESENTATIVES

DEBATE

[CONTINUED.]

Now the gentleman from Massachusetts (Mr. Crowninshield) has settled at a single sweep, to use one of his favorite expressions, not only that we are capable of contending with Great Britain on the ocean, but that we are actually her superior. Whence does the gentleman deduce this inference? Because truly at that time when Great Britain was not mistress of the ocean, when a North was her prime minister, and a Sandwich the first lord of her admiralty, when she was governed by a counting house administration, privateers of this country trespassed on her commerce. So did the cruizers of Dunkirk at that day Suffrein held the mastery of the Indian seas. But what is the case now? Do gentlemen remember the capture of Cornwallis on land because De Grasse maintained the dominion of the ocean? To my mind no position is more clear than that if we go to war with Great Britain, Charleston and Boston, the Chesapeake and the Hudson, will be invested

Although I have said it would be time enough to answer the question which gentlemen have put to me when they shall have answered mine, yet as I do not like to prognosticate I will give them an answer now. I never will consent to go to war for that which I cannot protect. I deem it no sacrifice of dignity to say to the Leviathan of the deep—we are unable to contend with you in your own element, but if you come within our actual limits we will shed the last drop of our blood in their defence. In such an event I would feel, not reason, and obey an impulse which

This brings me to the second point.—How far is it politic in the United States to throw their weight into the scale of France at this moment; from whatever motive to aid the views of her gigantic ambition; to make her mistress of the sea and land; to jeopardize the liberties of mankind. Sir, you may help to crush Great Britain, you may assist in breaking down her naval dominion; but you cannot succeed to it. The iron sceptre of the ocean will pass into his hands who wears the iron crowns of the land. You may then expect a new code of maritime law. Where will you look for redress? I can tell the gentleman from Massachusetts, that there is nothing in his rule of three that will save him, even although he should outdo himself and exceed the financial ingenuity which he so memorably displayed on a recent occasion. No, sir—Let the battle of Actium be once fought and the whole line of sea coast will be at the mercy of the conqueror. The Atlantic, deep and wide as it is, will prove just as good a barrier against his ambition if directed against you, as the Mediterranean to the power of the Caesars. Do I mean (when I say so) to encourage the invader? No; I will meet him at the water's edge, and fight every inch of ground from thence to the mountains, from the mountains to the Mississippi. But after tamely submitting to an out-

Because a man can take an observation and keep a log-book and a reckoning, can navigate a cock boat to the West Indies and the East, shall he aspire to navigate the great vessel of state, to stand at the helm of public councils? *Ne sutor ultra crepidam*. What are you going to war for? For the carrying trade? Already you possess seven eighths of it. What is the object in dispute? The fair honest trade that exchanges the product of your soil for foreign articles for home consumption? Not at all. You are called upon to sacrifice this necessary branch of your navigation and the great agricultural interest, whose hand-maid it is : to jeopardize your best interests for a circuitous commerce, for the fraudulent protection of belligerent property under your neutral flag. Will you be goaded by the dreaming calculations of insatiate avarice to stake your all for the protection of this trade? I do not speak of the probable effects of war on the price of our produce. Severely we must feel, we may scuffle through it. I speak of its reaction on the constitution. You may go to war for this excrescence of the carrying trade ; and make peace at the expence of the constitution. Your executive will lord it over you, and you must make the best terms with the conquerer that you can.

The elector communicated to the articles of the treaty on the 4th October 1790. This treaty is the emperor of the Holy Roman Empire, M. the emperor of Austria, Italy, guaranteed Wirttemberg the integrity of all his subjects and the fugitive which

I have a yet more cogent rea-

But the gentleman from Pennsylvania (Mr. Gregg) tells you that he is for acting in this, as in all things, uninfluenced by the opinion of any minister whatever, foreign or, I presume domestic. This point I am willing to meet the gentleman, and unwilling to be dictated to by any minister at home or abroad. Is he willing to act on the same independent footing? I have before pro- tested, and I again protest against secret, irresponsible, overruling influence. The first ques- tion I asked when I saw the gentleman's resolu- tion was, "is this a measure of the cabinet?"—Not of an open declared cabinet, but of an in- visible, inflexible, unconstitutional cabinet—without responsibility, unknown to the constitu- tion. I speak of back stairs influence—of men, who bring messages to this house, which, al- though they do not appear on the journals, gov- ern its decisions. Sir, the first question that I asked on the subject of British relations was, what is the opinion of the cabinet? What mea- sures will they recommend to Congress? (Well knowing that whatever measures we might take they must execute them—and therefore that we should have their opinion on the subject)—My answer was (and from a cabinet minister too) "there is no longer any cabinet." Subsequent circumstances, Sir, have given me a personal knowledge of the fact. It needs no comment.

(To be continued.)

BY THIS DAY'S MAIL.

NEW YORK, March 15.

In the present dearth of European in- telligence the following articles, which we have copied from our late French papers, and which principally relate to events sub- sequent to the Great Battle, will not be found altogether uninteresting.

PRUSSIA.

Berlin, December 1.

Our garrison and that of Prussia have received orders to hold themselves in readi- ness to march for the 5th instant; but the generals of the first rank say that no move- ment will take place, before intelligence is received of the result of the decisive battle which cannot fail to take place in a few days, between the Russian and French ar- mies.

3d. This day's Court Gazette, contains the following article dated

Olmütz, November 27.

"The Grand Duke Constantine arrived here the day before yesterday; yesterday the corps of the army under his orders de- filed before our fortress and repaired to the Russian Camp, which was still at Olshau. The French army, whose advanced posts penetrated a few days since within four leagues of Olmütz, is now on its retreat: The combined Russian and Austrian ar- mies are marching forward; their head quarters are to day at Promitz and the advanced guard of Prince Pangration is already at Vichau. The first column of general Michelson's army will arrive this day at Troppau; it is expected here the day after to-morrow."

These details are so much the more curious at present, as they prove to the enemy the scheme that was laid for him. He looked on the retreat as a positive one, and boasted of it a little too early.

GERMANY.

Ulm, December 14.

A contribution of 400,000 francs has been laid on the Austrian possessions in Suabia, to be paid in three instalments, in- to the chest of the Paymaster general of the French army. A second contribution, payable every month is fixed at 80,000 fr. per month, to begin from the 6th Decem- ber.

Letters from the Head Quarters at Brunn, of the 24th November, state that the junction of the Grand French Army with the army of Italy has taken place; they add that the right wing of the French army is supported by the Adriatic sea, and the left by Bohemia and the fortress of Brunn in Moravia: there is not in the intervals of their line or on their rear, a single fortified town or body of the enemy which threat- ens them, and it is their intention to estab- lish a communication between the fortres- ses of the Tyrol and those on the Inn and in Moravia.

Frankfort, 8th December.

The elector of Wirtemberg has commu- nicated to the states of his territories the articles of the treaty of alliance concluded on the 4th October, between H. M. the emperor of the French and H. S. E. H. This treaty is to the following tenor: "H. M. the emperor of the French, king of Italy, guarantees to H. H. the elector of Wirtemberg the independence and integ- rity of all his states, with the rights and pre- rogatives which the electoral house is now

in possession of, and such as they were de- termined by the treaty of peace of Lune- ville and by the general recess of the depu- tation of the empire. H. E. H. engages on his side to furnish to the French army a body of from 8 to 10,000 men, consisting of 1000 mounted cavalry, and from 7 to 8000 infantry.

Four secret articles are annexed to this treaty. The communication of these ar- ticles has not yet been made known to the provincial states.

Munich, December 2.

General Massena is now at Leybach. The archduke Charles has arrived with his army on the frontiers of Hungary.

December 5.

All the secretaries, clerks, &c. of his excellency M. de Talleyrand Perigord, minister of foreign affairs to the emperor Napoleon, arrived here the day before yesterday. It is presumed that his excel- lency will not be long in following them, and that our town will be at once the centre of the most important negotiations, and the theatre of the most memorable events.

A few days since a Gazette in the north of Germany published for three days fol- lowing, this article: "Prussia has a popu- lation of 8,000,000 souls, 160,000 of whom can take the field." Another German paper then printed, for three days following this article: Austria had a population of 24,000,000 souls; she had an army of 410,000 men, of whom 280,000 had taken the field; and this formidable power has fallen, in seven weeks, under the blows of the emperor Napoleon.

Hanover, 4th December.

Two columns of Russian infantry, one of 1900 and the other of 1200 men arrived here this day. They are to march imme- diately for the siege of Hameln. The Russian head quarters will be established at Hanover. The colonel, M. de Corn- berg, is attached to the Russian army.

A Swedish division is arrived at Har- bourg from Lunebourg. The other troops of that nation stationed at Pomerania were to begin their march on the 4th, 5th, and 6th of this month. The king of Sweden was to follow on the 7th, with his staff.

The Imperial treasure of Austria has been transferred under a strong escort to Treschen.

FRENCH EMPIRE.

Genoa, December 6.

A new army is forming at Boulogna, to which is to be united all the corps of re- serve left in the 27th military division. It will, it is said, march to Bataglion, where the different corps which compose it will learn their further destination. It is pre- sumed that they will observe the motions of the Anglo Russians who have landed at Naples.

Letters from Anconia state, that 5 or 600 Russians have also landed on the coast of Fermo.

Mentz, December 7.

The division of the advanced guard of the 2d corps of the army of reserve, com- manded by general Lorge, set out a few days ago for Juliers. The Gallo Batavian column, consisting of the regiment of Saxe Gotha, of the 18th regiment of light infan- try, of the 6th of hussars and of the 8th of light infantry, are also set off to day for Nimwegen. Another division of the ad- vanced guard of the reserve of Strasburg, commanded by general Leval, is on its march for the same destination, as also several other corps now on their way from the interior. The army intended to cover Holland is estimated at 60,000 men.

Strasbourg, December 15.

All the high roads from Mayence to Straf- burgh, &c. are covered with the reserve of the conscripts of the last five years. As soon as they arrive at their place of destination they are cloth- ed, armed, and exercised in military tactics. This class of conscripts appear destined to form the armies of reserve which are now organizing. As the two new classes of conscription, the young men who compose them serve to fill up the va- cancies in the active army, and to reinforce the regiments and battalions of the different armies.

Paris, December 17.

His imperial highness Prince Louis set off for Antwerp on the 7th, with the whole of his suite, and Generals Collaud, Clozel, Lagrange, &c. for Breda, where the head quarters of the army of the north will be established.

Fifteen hundred grenadiers, young, well e- quipped and of a very handsome appearance, passed through Beauvais on the 10th instant, to repair to the army of the north, and burn with ardor to meet the Anglo Russians,

General Oudinot, whose wounds had obliged him to be absent from the army for a short time, has resumed the com- mand of the grenadiers.

It was on the 26th November that the Emperor of Russia arrived at Olmutz, where he was received with the firing of cannon and the acclamation of the Austri- ans, who regarded him as a liberator. It was on the 2d December that the great bat- tle of Austerlitz took place; and on the 4th of the same month the Emperor of Russia obtained leave to quit Olmutz to return to his states. Thus, in 8 days, his arrival, his departure, and the fate of Eu- rope have been decided.

Duncan M'Farland.

The Richmond Enquirer, now and then, puts on such an air of honesty, that it requires confi- dence to guard against his decep- tions. He never commences with affected can- dor, but he ends with positive falsehood. A short time since, he amused his readers, with an arti- cle concerning Duncan M'Farland, in which, after acknowledging the worthlessness of Duncan, he says, "The republicans are as much dis- gusted with the alleged vices of Duncan M'Farland as their federal opponents. They hold in an ab- horrence not inferior to theirs, the character of a hog stealer, a forger, and a perjurer." And then he attempts to shew that Duncan obtained his election by a federal trick. We cannot tell how much the democrats are disgusted with, nor how much they abhor Duncan's crimes; but we know, and the Enquirer must also know, that their papers, from the Aurora to the Bee, have advocated and defended him, since his confine- ment for forgery and perjury. The only trick made use of by the federalists, to put Duncan in office, was, a complete exposition of his char- acter in the public prints. Does the Enquirer mean to say, that it is only necessary for the fe- deralists to prove a man a rascal, to ensure him the suffrages of the democrats?

NAVY DEPARTMENT.

March 4, 1805.

Sir,

In obedience to the resolution of the house of representatives of the 5th ult. requiring the secretary of the navy to in- form the house "of the nature and extent "of the services rendered to the captive "crew of the frigate Philadelphia, by the "Danish consul at Tripoli," I herewith enclose a copy of a letter from Capt. Bain- bridge to me, which affords all the infor- mation in my possession upon the sub- ject.

Respectfully submitted,

R. SMITH.

The honorable Speaker of the house of representatives of the U. S.

COPY.

New York, February 12, 1806.

Sir,

In compliance with your letter of the 6th inst. which this day came to hand, I hasten to detail the services rendered to the crew of the United States late frigate Philadelphia, while in captivity at Tripoli, by Nicholas C. Nissen, esquire, his Danish majesty's consul, residing there.

In consequence of the mode of impris- onment it was impossible for the officers to procure the necessary articles of sub- sistence, they were therefore necessitated to receive their daily provision, &c. thro' another channel. Mr. Nissen generously offered his services to obtain our necessary supplies, which he did, in the most faith- ful manner for 19 months and 3 days, the period of our captivity, and at times when the funds placed at my command in Tri- poli, were expended, he continued our daily supply, by his own means, until ours were renewed by the commodore of the Mediterranean squadron, or George Da- vis, esquire, charge of affairs at Tunis, to whom we are greatly indebted.

Had it not been for the friendly aid of consul Nissen we should not have received our subsistence in so regular a manner as we did, and should have been exposed, at a great expence to the impositions of the lowest class of our enemy. His attentions were not confined solely to the officers, but were equally extended to the seamen and soldiers.

Consul Nissen was the first christian we saw after landing on the shore of Africa, and he met us the very evening of our mis- fortune, with the philanthropy of a man of feeling, and immediately administered to our wants by sending provisions and bed- ding from his house, and ameliorated, as much as possible, our truly unpleasant situ- ation.

I cannot, in justice to his attention, omit mentioning a circumstance which shews the lively interest he took in our situation,

and the hazard he ran to serve us: When commodore Preble attacked Tripoli, Mr. Nissen's house was as much exposed as any in the town, and himself in danger from the bombardment. I solicited him fre- quently to leave his dangerous situation, and retire to the gardens where the con- suls were: he requested me not to im- pulse him more to leave the town, for he preferred running the risks of the shot and shells from our squadron, and attending to our wants and subsistence, to resorting to the gardens. In thus pursuing the dictates of a feeling mind he was very near losing his life by a shot from the Constitution. Had he not acted in this friendly manner towards us it is very probable we should have been several days without provision, as the enemy were occupied and exasper- ated.

I have, sir, detailed to you generally the services rendered to the officers and crew of the Philadelphia, at Tripoli, by Ni- cholas C. Nissen, esquire, but it is impos- sible for me to convey a just sense of them. Nothing but a perfect acquaint- ance with our situation, and the aid we re- ceived, can truly estimate the services ren- dered.

I have the honor to be,

sir, &c.

DR. HAMILTON'S ELIXIR,

A sovereign remedy for Colds, Obsolete Coughs, Asthma, Catarrhs, Sore Throats, and approaching Consumption.

To Parents who may have children afflicted with the HOOPING COUGH.

This discovery is of the first magnitude, as it is an immediate relief, checks the progress, and in a short time entirely removes the most cruel disorder to which children are liable. The Elixir is so perfectly agreeable and the dose so small that no difficulty arises in taking it.

From LUTHER MARTIN, Esq. Attorney-General of the State of Maryland.

Gentlemen,

I comply with your request in stating my opinion of Hamilton's Elixir. It has been used in my family for two or three years past, with uniform success, whenever colds, coughs, or similar complaints have rendered medicine necessary. I have myself found it an excellent and agreeable remedy for a very painful and troublesome affection of the breast, accompanied with soreness and with obstructed and difficult breathing.

On these accounts I do not hesitate to recommend Hamilton's Elixir, as a valuable medicine, and deserving public attention.

LUTHER MARTIN.

Mr. Abijah Henry, Bridge-Street, Baltimore, was cured by one bottle of Hamilton's elixir of a very complicated disorder, occasioned by a severe cold caught several months ago. He breathed with the greatest difficulty, and was often thrown into weakening sweats when he attempted to walk any distance, and his voice would frequently fail in such a degree that he could only attempt to whisper: he has seen upwards of six weeks without a return of his complaints and desires to give this public testimony in favor of his invaluable medicine.

Dr. Hamilton's GRAND RESTORATIVE,

Is recommended as an invaluable medicine, for the speedy relief and permanent cure of the various complaints which result from dissipated pleasures—juvenile indiscretions—residence in climates unfavorable to the constitution—the immoderate use of tea, frequent intoxication, or any other destructive intemperance—the unskillful or excessive use of mercury—the diseases peculiar to females at a certain period of life—bad lyings in, &c. &c.

And is proved by long and extensive experience to be absolutely unparalleled in the cure of

Nervous Disorders,	Violent cramps in the
Consumptions,	Stomach and back,
Lowness of spirits,	Indigestion,
Loss of appetite,	Melancholy,
Impurity of the blood,	Gout in the stomach,
Hysterical affections,	Pains in the limbs,
Low weakness,	Relaxations,
Seminal weaknesses,	Involuntary emissions,
Fluoribus (or whites)	Obtuse gleets,
Barracenis,	Impotency, &c. &c.

In cases of extremity, where the long prevalence and obstinacy of disease has brought on a general impoverishment of the system, excessive debility of the whole frame, and a wasting of the flesh, which no nourishment or cordial could repair, a perseverance in the use of this medicine has performed the most astonishing cures.

HAMILTON'S ESSENCE AND EXTRACT OF MUSTARD,

A safe and effectual remedy for gout, rheumatism, palsy, sprains, bruises, pains in the face and neck, &c. And has performed more cures in the above complaint than all the other medicines ever before made public.

From Dr. Weatherburn,

Wythe county, Virginia.

GENTLEMEN,

I purchased at your shop the preparations you call Hamilton's Essence, or Extract of Mustard, which I believe has perfectly removed a chronic rheumatism (of that kind named sciatica, or of the hip joint) under which I had labored for a long time, and which had baffled every article in the Materia Medica, and every mode of treatment received into practice for the cure of this obstinate disease. If you think this letter useful you are at liberty to make it public.

Yours, &c.

W. WEATHERBURN.

John Hoover, rope maker, South Second Street, between Mary and Christian Streets, Philadelphia, voluntarily makes oath as follows, namely:

That his wife, Mary Hoover, was so severely afflicted with a violent rheumatism, very dangerously situated the consequence of a severe cold after lying in, as to be confined to her bed for several weeks, and was at length reduced to the melancholy apprehension of remaining a cripple for life, notwithstanding the most respectable medical advice was followed, and every probable remedy attempted: when feeling several cases of cures performed by Hamilton's Essence and Extract of Mustard, they were procured from Mr. Birch, No. 17, South Second Street. The first application enabled her to walk across the room, and the use of one bottle restored her to her usual state of health and strength.

HAMILTON'S

WORM DESTROYING LOZENGES,

Which have within four years past cured upwards of one hundred and twenty thousand persons of both sexes, of every age, and in every situation, of various dangerous complaints arising from worms, and from obstructions or laxities in the stomach and bowels.

This medicine bears no analogy whatever of similar title, is commonly complained of as operating with violence, on the to every age and consequence, and of this being suited to every age, and a particular situation, and also its containing nothing but what is perfectly innocent, and so mild in its operation that it cannot injure the most delicate pregnant lady, or the tenderest infant of a week old should no worms exist in the body, but will, with out pain or griping, cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. They are particularly efficacious in carrying off all gross humors and corruptions; feverish and bilious complaints, and the safest and mildest purgative that can be used on the occasion.

Description of Worms, and the symptoms by which they are known.

Worms which infest the human body, are chiefly of four kinds, viz. the Teres or large round worm, the Ascarides, or small maw worm, the Cucurbitina, or short flat, white worm, and lastly, the Tania or tape worm so called from its resemblance to tape; this is often many yards long, and is full of joints—it is most hurtful and most difficult to cure.

Among the symptoms attending worms, are disagreeable breath, especially in the morning—Bad and corrupted gums—Itching in the nose and about the feet—Convulsions and epileptic fits, and sometimes privation of speech—Starting and grinding of the teeth in sleep—Irregular appetite; sometimes loathing food, and sometimes voracious—Purging, with slimy and foetid stools—Vomiting—Large and hard belly—Pains and sickness at the stomach—Pains in the head and thighs, with lowness of spirits—Slow fever, with small and irregular pulse—A dry cough—Excessive thirst—Sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's worm destroying lozenges, which have been constantly attended with success in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season will effectually prevent the vomiting and purging of children, a dreadful disorder which annually destroys thousands of the infant part of our cities. It is likewise the mildest and most certain remedy known and has restored to health and strength a great number when in advanced stages of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness, having a pleasing appearance, and an agreeable taste.

CASES OF CURES—

By Hamilton's

WORM DESTROYING LOZENGES,

(Selected from thousands) the authenticity of which any person may ascertain either by letter or personal application.

TAPE WORM.

Mr. SAMUEL FULLER, Inn keeper, on the Harford road, ten miles from Baltimore, began about twenty months ago to be grievously afflicted with a tape worm, which increased fast in size and strength, so as to excite the most horrid sensations by his writhing motions and intolerable pains, resembling the gnawing and tearing of his bowels, which deprived him of his necessary sleep, and caused such dreadful apprehensions as cannot be conceived but by one in a similar situation—his appetite wasted rapidly, and with that his strength, so that he was unable to attend to any business—when he heard of some excellent cures performed by Hamilton's worm lozenges, he took a large dose, which brought away about FOUR YARDS of the worm (now in the possession of Lee, & Co.) but a renewal of his pains soon convinced him that this monstrous reptile had recovered its first vigor—Application was made to Lee & Co. for more of their medicine, with their advice, from which resulted the total expulsion of his formidable enemy, in several pieces, which he supposed to be SIX or EIGHT YARDS more. A few months have since elapsed, and Mr. Fuller is now in perfect health. The above facts are well known to a numerous circle of his neighbors, and himself will gratify any who may wish to make further inquiries on the subject. Although Hamilton's worm lozenges produce such powerful effects, when necessary, yet they are perfectly innocent and mild in their operation on the human body, even taken in large doses, as Mr. Fuller will testify—their particular mildness is abundantly evident in innumerable cures of infants.

Communicated by Dr. John Spangler, York town, Pennsylvania.

Letter from the reverend Mr. JOHN MOLTER, minister of the Moravian church, in York-town.

York, January 4th, 1802.

DEAR SIR,

Dr. Hamilton's lozenges have been recommended to me as a very adequate means for the cure of children afflicted with worms, I procured a box for the use of my family, to try whether by means of this medicine I might be enabled to gain a point, which, to accomplish, different other means had proved abortive. My eldest boy had a very sickly appearance, was very restless at night, grew leaner from time to time; in short, he seemed to be in a precarious state of health, which would yield to none of the medicines administered, until I gave him two doses of lozenges, agreeably to the directions, which carried off a substance to all appearance a mere mucus but upon close inspection quite replete with very small living animals. Not one of that sort of worms which usually afflict children came from him. Since that period he grew remarkably better in health, and though lean has got a fresh and lively complexion. Upon different occasions, I have used this medicine as a purging substitute, and found it to answer exceedingly well, without bringing on belly ache, or any other disagreeable sensations, to often occasioned by purging medicines. Upon the which I judge this medicine to be, besides its main object, one of the most salutary means for restoring lost appetite, and promoting a proper state of digestion, by carrying off that bilious substance, which engenders so much indisposition both among children and adults.

I am, Sir, your most obedient servant,

JOHN MOLTER.

Dr. Hahn's true and genuine German Corn Plaster.

An infallible remedy for corns, speedily removing them root and branch, without giving pain.

The genuine Persian Lotion,

So celebrated among the fashionable throughout Europe, as an invaluable cosmetic perfectly innocent and safe, free from corrosive and repellent minerals (the basis of other lotions) and of unequalled efficacy in preventing and removing blemishes in the face and skin of every kind, particularly freckles, pimples, inflammatory redness,

scuffs, tetter, rings worms, yan burns, prickle heat, &c.

The Persian Lotion operates mildly, without impeding that natural, insensible perspiration, which is so essential to health. Yet its salutary effects are speedy and permanent, rendering the skin delicately soft and clear, improving the complexion, and restoring the bloom of youth. Never failing to render an ordinary countenance beautiful, and an handsome one more so.

The Restorative Powder for the Teeth and Gums.

This excellent preparation comforts & strengthens the gums, preserves the enamel from decay, and cleanses and whitens the teeth, by absorbing all that acrimonious slime and foulness, which suffered to accumulate, never fails to injure and finally ruin them.

Dr. Hahn's genuine Eye-Water.

A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness or of accident, deflections of rheum, dullness, itching, and films on the eyes, never failing to cure those in ladies which frequently succeed the small pox, measles and fevers, and wonderfully strengthening a weak sight. Hundreds have experienced its excellent virtues, when nearly deprived of sight.

Tooth Ache Drops.

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

The sovereign Ointment for the Itch.

Which is warranted an infallible remedy at one application, and may be used with perfect safety on pregnant women or on infants a week old, containing not a particle of mercury, or any other dangerous ingredient whatever, and is not accompanied with that tormenting smell, which attends the application of other remedies.

The Anodyne Elixir.

For the cure of every kind of head ache.

Indian-Vegetable Specific.

A safe and speedy remedy for the venereal disease. "An ounce of prevention is worth a pound of cure."

For the prevention and cure of bilious and malignant fevers.

ITS RECOMMENDATION

Dr. Hahn's Anti-Bilious Pills.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation, and of every age.

They are excellently adapted to carry off superfluous bile, and prevent its morbid secretions; to restore and amend the appetite; to procure a free perspiration; and thereby prevent colds, which are often attended with fatal consequences; a dose never fails to remove a cold, if taken on its first appearance. They are celebrated for its moving habitual costiveness; sickness at the stomach, and severe head ache; and ought to be taken by all persons on a change of climate.

Sold likewise by S. Pleasants, Richmond; Rofs and Douglass, Petersburg; T. Green, Fredericksburgh; G. Purdie, Smithfield; M. Jones, Suffolk; Dr. Miller, Winchester; R. Greenhow, Williamsburgh; and J. Shaw, Leesburg.

LAND FOR SALE.

Will be Sold, to the highest bidder, on MONDAY, the 19th day of May next, at Hay Market, (being the first day of the next circuit court to be held there)

TWO hundred acres of LAND, more or less, known by the name of Greenwell, and lying in the county of Prince William, four miles from Hay Market, on the road leading from thence to Fredericksburg and the Carolina's. The back road from the city of Washington to the southern states also runs through the land, which renders it an eligible stand for a tavern; it is also a good stand for a store. There are several houses, with a well of excellent water on this land, which lies well for cultivation, and has a considerable quantity of wood on it. The Plaster of Paris also appears well adapted to the soil, as I raised fine clover on it from the application of that manure only. The terms of sale will be—One third of the purchase money in 6 months, one third in 12 months, and the remaining third in 18 months from the day of sale; the purchaser giving bond and approved security for the payment thereof. Possession will be given immediately to the purchaser, and a good title made on receipt of the first payment.

For SALE or to RENT.

I will Sell or Rent the following VALUABLE PROPERTY in Alexandria and its vicinity, viz.

20 Acres of Land, situated on the north side of the turnpike road leading to Little River, one mile from the corporation of Alexandria; about 14 acres are enclosed. There is on the premises a good dwelling house 24 feet by 18, two stories high, with a kitchen and cellar underneath, granary, stable, and cow-house, with a good garden. The land is adapted for grass, corn, or small grain. This place may be well worth the attention of the gardener, butcher, tanner, or distiller; as there is a never-failing branch of water runs through the centre of the land and close to the dwelling: it is remarkable for good air and a healthy situation.

A Lot of Land, on the south side of Duke Street, in West End, not far from the stone bridge; containing three fourths of an acre, with the privilege of taking in part of the streets till called for. (now enclosed.) This lot corners on Duke and George Streets, running back to Wolfe Street. The improvements on said lot are a two story framed house, 24 feet by 18, kitchen 16 feet by 12, bake house 28 feet by 12, built with brick, stable hip roofed, capable of containing six horses, a double brick built necessary with a pigeon house on the top, all well finished and in good repair, with a pump of good water in the yard; back of the yard there is an excellent garden well palled and in good cultivation; in short there is every convenience fit for a genteel family.
